

# WHY BLOCKCHAIN-AS-A-SERVICE FROM AZURE

BY TOSHENDRA SHARMA

# WHY BAAS FROM AZURE

- As an open, flexible, and scalable platform, Azure supports a rapidly growing number of distributed ledger technologies
- Types of Blockchains supported are already high
- At one place you can launch any type of Blockchain quickly ie. Ethereum, BlockApps, Chain Core, Emercoin etc.
- Their intelligence services, like Cortana Intelligence Suite, provide unique data management and analysis capabilities that no other platform is able to offer.
- And the vast Microsoft partner ecosystem extends the capabilities of their platforms and services in a way to fit specific roles and industry needs.
-
